-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The amendments to the specification have been approved by the examiner.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Goebel, as cited in the previous action. The applicant's amendments and arguments, filed February 18, 2005, have been considered. However, they are not deemed to overcome the previous rejection for the reasons cited in that rejection and for the reasons indicated below.

The applicant is advised to see the previous action for its content since the details of that action will not be discussed further here. The applicant indicates that Goebel does not teach or suggest that the primary or secondary edges have direction; however, the portion cited in the previous action at col. 3 lines 21-27 refers to one **vector** representing primary links and the other **vector** representing secondary links, as noted by the applicant on page 10 of his response. The applicant should also note that a **vector, by definition**, has direction. Therefore, both links have direction.

The other features of the applicant's claims have been presented in the previous action and will not be repeated here. The feature of the pass edge has been discussed in the previous action. The feature has also been discussed in the applicant's background of the invention. That definition is the one applied in the present action and the one that was utilized in the previous action.

The newly added "register interference graph" feature is considered inherent

in the previous action and therefore, it will not be discussed further here, see again the applicant's background of the invention and the entire Goebel reference.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

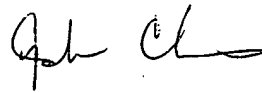

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Chavis whose telephone number is (571) 272-3720. The examiner can normally be reached on M-Tue & Th-F, 8:30-5:00.
